SUMMARY

Finance Systems Analyst with 2+ years of experience in SAP S/4HANA aligned environments, driving P2P, R2R, and A2R financial controls, ERP validation, and reporting governance. Proven track record of improving financial accuracy, optimizing system workflows, and partnering with Finance and IT teams to enhance enterprise reporting and operational efficiency.

PROFESSIONAL EXPERIENCE

University of North Texas | *Finance Analyst Intern - Finance Administration* | Dallas, TX

May 25 - Present

- Spearheaded SAP and Oracle financial systems to support budgeting and forecasting workflows, improving multi-source reporting accuracy by 17% and strengthening financial data governance for the sanctioned campus projects.
- Analyzed budget vs. actual spending across capital and operational projects, reconciling SAP-generated GL and cost center data to identify \$45K in cost variances and improve forecast precision by 13%.
- Enhanced financial reporting infrastructure by integrating financial data into Power BI and SSRS dashboards (P&L, CapEx, OpEx), contributing to an 11% reduction in projected expenses.
- Partnered with finance and IT stakeholders to refine reporting requirements, validate cross-system data consistency, and support structured reporting enhancements within SAP-backed environments.

University of North Texas - Financial Planning & Reporting | *Graduate Data Analytics Assistant* | Dallas, TX

Nov 24 - Apr 25

- Led end to end financial resource allocation analysis across 1.2M+ records using SQL and Python ETL pipelines; enhanced budgeting transparency and aligned operational spending with strategic priorities.
- Developed predictive models and 4+ Power BI dashboards to forecast funding requirements and monitor financial KPIs; improved governance visibility and streamlined cross-functional reporting workflows.

Northern Trust Corporation | *Financial System Analyst* | Bangalore, India

July 22 - July 23

- Led Procure-to-Pay (P2P) and Record-to-Report (R2R) financial controls across 5+ international entities, validating invoice posting logic, vendor master data, and payment clearing workflows within SAP S/4HANA environments, improving payment accuracy by 23%.
- Executed SAP S/4HANA functional validation during ERP migration, reconciling GL, vendor, and payment data across legacy and SAP FI modules, achieving 99% post-migration cross-module accuracy and reducing reporting discrepancies by 31%.
- Served as finance liaison between Accounting and IT teams during system transition, aligning business requirements with SAP configuration logic and resolving GL mapping and posting flow inconsistencies to ensure financial statement integrity.
- Managed finance-driven system enhancement requests, documenting functional requirements, assessing business impact, and partnering with technical teams to prioritize reporting and control improvements, accelerating update turnaround time by 24%.
- Automated OPEX reconciliation and A2R reporting workflows using Excel and Python, reducing manual reconciliation effort by 42%.

ACADEMIC PROJECT

Capital Budget Forecasting & Variance Governance Model | Procter & Gamble Enterprise Finance Case Study

- Developed a capital expenditure forecasting model using historical budget vs. actual data and scenario-based sensitivity analysis to enhance planning precision and optimize capital allocation decisions.
- Designed variance governance dashboards in Power BI integrating P&L, cost center, and CapEx metrics, improving executive visibility and reducing forecast deviation by 16%.

Procure-to-Pay Risk & Cash Flow Optimization Model | Walmart

- Analyzed high-volume P2P workflows including vendor onboarding, 3-way matching, and payment approvals within a simulated ERP environment; identified duplicate payment risks and cash flow inefficiencies.
- Designed a compliance monitoring framework tracking Days Payable Outstanding (DPO), invoice cycle time, approval lag, and exception rates. Reduced simulated control exceptions by 22% and improved payment processing efficiency by 18%.

EDUCATION

University of North Texas, Dallas, TX

Aug 24 - May 26

Master of Science in Business Analytics - Finance Specialization

GPA: 3.60/4

St. Xavier's University, Kolkata, India

Aug 20 - May 22

Master of Commerce in Finance

GPA: 8.75/10

SKILLS

Financial Processes & Controls: Procure-to-Pay (P2P), Record-to-Report (R2R), Account-to-Report (A2R), Budgeting & Forecasting

ERP & Financial Systems: SAP S/4HANA (FI/CO), Oracle Financials, ERP Data Validation, Cross-System Reconciliation, GAAP

Data & Analytics: SQL, Python, R, SAS, Power BI (DAX), Tableau, Excel (VBA)

Data Platforms: Snowflake, Databricks, Alteryx, Essbase

Certification: Microsoft Certified: Power BI Data Analyst Associate (PL 300), Microsoft Certified: Azure Fundamentals (AZ 900)
